Parks & Recreation: Lasko stated "Everyone got a copy of a raw drawing from their meeting with Bob Regola and the intensions for Willows Park including a pedestrian crossing along the railroad which we know may take years but is something we hope to do in the future, plans for the parking lot on the Levins Property side as well as the Pickleball Court, Dog Park, and other various things like bridge repair." Mayor Bailey asked "Where it is labeled skate park and parking lot was the property we were going to subdivide and get bids on... are we not doing that now?" Councilman Barrick responded that "After further discussion with Borough Manager Lesko, Parks Department, and several councilpersons, we have decided this rather than what the previous council had chosen." Mayor Bailey said "fine I just was curious because this is the first I have heard of this." Barrick responded, "Some of us believe there is a lack of parking and lack of access to Willows Park, this would be a better way of using this." Councilman Davis liked everything on there but wasn't sure if the skate park would be used, he does not feel kids skate anymore. Lasko said kids skate past her house all the time. Lasko said, "We are trying to give the kids a place to do this without being at other places in town they shouldn't be. The plan is to try and give a universal option for everyone from old to young." Councilman Davis asked, "Has anyone ever thought about doing a rubber running track at Frick Park. It is not the best to run on,

I am not sure of the price but just a thought.” Councilwoman mentioned the rubber under the playground equipment was pretty pricey. Councilwoman Stevenson asked, “How much of this is dependent on getting the pedestrian crossing?” Barrick responded that, “It is not a deal breaker but it is a process and we just have to be diligent and have someone who is willing to see it through. We will have to work with the railroad, PennDOT, etc., and it is going to take time, but it can be done. Bob Regola can get it in front of SWP, then the planning commissions will be able to put the money aside.” Councilwoman Barnes asked when we will be meeting with Regola again?” Councilman Barrick responded with, “Gibson Thomas will hopefully make us a concept plan to scale fairly cheap and then we will give it to Regola. Then if we get grant money we will reimburse. It shouldn’t take too long, probably just a few days.”

A Motion was made by Councilwoman Lasko to approve the Parks & Recreation report submitted by Councilwoman Lasko. Motion seconded by Councilman Davis. Motion carried 9-0.

Public Safety Report: Councilman Phillabaum mentioned he reported an ordinance violation of a resident for burning, it was a nice sized fire. He just wants to make everyone aware, do not hesitate to turn these things in, and you are able to call 911 for a nonemergency.

The next thing Councilman Phillabaum mentioned was the Election Bureau since the pandemic has been trying to move the election out of the 3rd Ward Fire Station. They have been trying for a few years now. Jackie reached out to Ken and wanted to know if it could be moved to the Medic 10 building. He asked “So we as council have to approve this correct?” Solicitor Mlakar responded with “You have to amend the agenda since it is not an expenditure of municipal funds. There should be a motion to amend the agenda to allow consideration of the request from the Westmoreland County Election Bureau to move voting precinct. Councilman Phillabaum said “The biggest reason for this is the parking is horrible at 3rd Ward and the Medic 10 building is more ADA compliant.” He also stated that, “The county will send out new voter cards to everyone this will affect telling them where to vote as well as signage will be placed on election day to tell people of the change.”
